RESPONSE TO RESTRICTION REQUIREMENT

United States Patent and Trademark Office
Customer Service Window
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Sir:

In response to the Restriction Requirement mailed **May 5, 2005**, and further to a telephone discussion with Primary Examiner Jung, Applicants respectfully **traverse** the Restriction Requirement as set forth herein.

The present Restriction Requirement asserts that the “new claims are no longer directed to cryptography of the content of a wireless communication such as the original set of claims” (Restriction Requirement. Page 2). This assertion, however, is respectfully traversed, because the original dependent claims, still pending, and the added claims include cryptography (see, e.g., independent claim 1 and dependent claims 9, 27 and 28, and new independent claim 29 and dependent claims 37, 43 and 44). In this respect, the previous independent claim 1, before being amended, did not recite “cryptography of the content of a wireless communication.”

Moreover, the previous claims were merely amended to more clearly recite that that the “mobile unit identifier” is static and that there are a plurality of the “updateable identifiers”

used for communications and to recite further features of the invention, wherein the updateable identifiers are updated with each call based on the static mobile unit identifier, at a periodic time interval, and/or upon an occurrence of a triggering event, in order to prevent unauthorized communications with the communications device. Accordingly, the noted amendments are consistent with the invention recited in the original claims and do not warrant the present Restriction Requirement, which is respectfully traversed.

In view of the foregoing, it is submitted that the present Restriction Requirement is traversed and examination of the pending claims is respectfully requested. If, however, the Examiner deems that any issues remain after considering this response, the Examiner is invited to contact the undersigned attorney to expedite the prosecution and engage in a joint effort to work out a mutually satisfactory solution.

Respectfully submitted,
